PURPOSE OF GROUP

The family support group is an ongoing group for individuals who have a child, spouse, sibling or friend who is:

1. Currently in treatment at MARR,
2. Has been in treatment at MARR or another facility and is now in active recovery,
3. Is engaged in active addiction, or
4. Is in another substance abuse related situation (i.e., jail, etc.)

The group discusses and teaches members about co-dependency / enabling and attempts to help members detach from their loved one in healthy ways. We have several long-term members (10+ years) who have experienced the positive impact of support in their own recovery process.
